SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Biopor Marker eco

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation

Silicone lacquer for coating earmolds and ear impressions

1.3. Details of the supplier of the safety data sheet

Address/Manufacturer

Dreve Otoplastik GmbH Max-Planck-Straße 31 DE-59423 Unna Telephone no. +49 2303 8807-0 Fax no. +49 2303 8807-29 Information provided Department Research & Development: Fax: +49 2303 8807-562 by / telephone E-mail address of sicherheitsdatenblatt@dreve.com person responsible for this SDS

1.4. Emergency telephone number

Henkel Fire Department / 24h-Emergency-Contact-No.: +49 211 797-3350

SECTION 2: Hazards identification ***

2.1. Classification of the substance or mixture

Classification (Regulation (EC) No. 1272/2008)

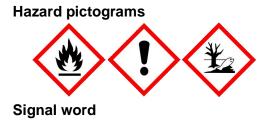

Classification (Regulation (EC) No. 1272/2008)

Flam. Liq. 2	H225
Skin Irrit. 2	H315
Eye Irrit. 2	H319
Aquatic Acute 1	H400
Aquatic Chronic 2	H411

The product is classified and labelled in accordance with Regulation (EC) No 1272/2008 For explanation of abbreviations see section 16.

2.2. Label elements

Labelling according to regulation (EC) No 1272/2008

Safety data sheet in accord	ance with regulation (EC) No 1907/2006	Dreve
Trade name: Biopor Marker e	со

	Replaces Version: 1 / GB	Print date: 26.08.2024
Danger		
Hazard statements		
H225	Highly flammable liquid and vapour.	
H315	Causes skin irritation.	
H319	Causes serious eye irritation.	
H400	Very toxic to aquatic life.	
H411	Toxic to aquatic life with long lasting effects.	
Precautionary stater	nents	
P210	Keep away from heat, hot surfaces, sparks, open fla sources. No smoking.	ames and other ignition
P264.1	Wash hands thoroughly after handling.	
P273	Avoid release to the environment.	
P280	Wear protective gloves/protective clothing/eye prote	
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several lenses, if present and easy to do. Continue rinsing.	minutes. Remove contact

P501.1 Dispose of contents/container to industrial incineration plant.

2.3. Other hazards

No special hazards have to be mentioned.

The product contains no PBT substances. The product contains no vPvB substances. This product does not contain a substance that has endocrine disrupting properties with respect to human. The product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms.

Non suitable extinguishing media

Full water jet

5.2. Special hazards arising from the substance or mixture

In case of combustion evolution of dangerous gases possible.

5.3. Advice for firefighters

Special protective equipment for fire-fighting

Do not inhale explosion and/or combustion gases. In case of combustion use a suitable breathing apparatus. Wear full protective suit.

Other information

Collect contaminated fire-fighting water separately, must not be discharged into the drains. Fire residues and contaminated fire-fighting water must be disposed of in accordance with the local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Keep away sources of ignition. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing. Use personal protective clothing. Refer to protective measures listed in Sections 7 and 8.

6.2. Environmental precautions

Prevent spread over a wide area (e.g. by containment or oil barriers). Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil. In case the product spills into sewage waters, immediately inform the authorities.

6.3. Methods and material for containment and cleaning up

Pick up with absorbent material. Do not pick up with the help of saw-dust or other combustible substances. Containers in which spilt substance has been collected must be adequately labelled. Dispose of as prescribed.

6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling

Avoid formation of aerosols. Provide good ventilation of working area (local exhaust ventilation if necessary). Take action to prevent static discharges. Avoid skin and eye contact.

Advice on protection against fire and explosion

Keep away from sources of heat and ignition. No smoking. Take action to prevent static discharges. Avoid impact and friction. Use only explosion-proof equipment. Keep away from combustible material. Wear shoes with conductive soles.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Keep in original packaging, tightly closed. Storage rooms must be properly ventilated. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Provide solvent-resistant and impermeable floor.

Hints on storage assembly

Safety data sheet in accordance with regulation (EC) No 1907/2006

Trade name: Biopor Marker eco

Do not store with strong oxidizing agents. Keep away from water.

Further information on storage conditions

Keep container tightly closed and in a well-ventilated place. Keep in a cool place

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Other information

Contains no substances with occupational exposure limit values.

8.2. Exposure controls

General protective and hygiene measures

Do not smoke during work time. Hold eye wash fountain available. Hold emergency shower available. Do not inhale gases/vapours/aerosols. Avoid contact with skin and eyes. Take off immediately all contaminated clothing. Do not eat or drink during work time. Wash hands before breaks and after work. Clean skin thoroughly after work; apply skin cream.

Respiratory protection

Use suitable respiratory protective device in case of insufficient ventilation; The respiratory protection must comply with the relevant CEN standards.

Hand protection

There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals.

Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.

Nitrile gloves.

Hand protection must comply with EN 374.

Eye protection

Safety glasses with side protection shield

Body protection

Clothing as usual in the chemical industry.

Remarks	Based on available data, the classification	criteria are not met.
Repeated exposure		
Remarks	Based on available data, the classification	criteria are not met.
Specific Target Organ T	oxicity (STOT) (Components)	
Dioctyltinacetylacetonate		
Single exposure		
evaluation	May cause damage to organs.	
Aspiration hazard		
Based on available data,	the classification criteria are not met.	
11.2. Information on other	hazards	
	operties with respect to humans	
	ntain a substance that has endocrine disrupting	properties with respect to
humans.	Rain a substance that has chubenne disrupting	proportion with respect to
Experience in practice		
	tation of the respiratory tract.	
Other information	. ,	
No toxicological data are	available.

SECTION 12: Ecological information					
12.1. Toxicity General information not determined					
Fish toxicity (Components)					
Hexamethyldisiloxane					
Species LC50	rainbow trout (Oncorhynchus mykiss) 0,46 mg/l				
Duration of exposure Hexamethyldisiloxane	96 h				
Species NOEC	Fathead minnow (Pimephales promelas) 0,029 mg/l				
Duration of exposure Method	32 d OECD 210				
Dioctyltinacetylacetonate	86 mg/l				
Duration of exposure Remarks	96 h The product is unstable in water. The information on elimination relates to the hydrolysis products.				
Methylsilane triacetate Species LC50 Duration of exposure Method Remarks	zebra fish (Brachydanio rerio) > 500 mg/l 96 h Regulation (EC) No. 440/2008, Annex, C.1 The product is unstable in water. The information on elimination relates to the hydrolysis products.				
Daphnia toxicity (Compone	ents)				
Hexamethyldisiloxane Species NOEC Duration of exposure Method	Daphnia magna 0,3 mg/l 21 d OECD 211				
Dioctyltinacetylacetonate Species EC50 Duration of exposure Remarks	Daphnia magna 58,6 mg/l 48 h The product is unstable in water. The information on elimination relates to the hydrolysis products.				
Methylsilane triacetate Species EC50 Duration of exposure Method Remarks	Daphnia magna > 500 mg/l 48 h Regulation (EC) No. 440/2008, Annex, C.2 The product is unstable in water. The information on elimination relates to the hydrolysis products.				
Methylsilane triacetate Species NOEC Duration of exposure Method	Daphnia magna >= 100 mg/l 21 d OECD 211

SECTION 15: Regulatory information

15.2. Chemical safety assessment

For this preparation a chemical safety assessment has not been carried out.

SECTION 16: Other information

Classification and procedure used to derive the classification for mixtures according to Regulation (EC) 1272/2008 [CLP]:

Trade name: Biopor Marker e	CO				
Substance number: S0013	Version: 2 / GB Replaces Version: 1 / GB		Date revised: 26.08.2024 Print date: 26.08.2024		
Classification (Regul	ation (EC) No. 1272/200	8)			
Clacomodiori (Roga	Flam. Liq. 2	H225	On basis of test data		
	Skin Irrit. 2	H315	Calculation method		
	Eye Irrit. 2	H319	Calculation method		
	Aquatic Acute 1	H400	Calculation method		
	Aquatic Chronic 2	H411	Calculation method		
Hazard statements I	isted in Chapter 2/3				
H225	Highly flammable liquid and vapour.				
H302	Harmful if swallowed.				
H314	Causes severe skin burns and eye damage.				
H315	Causes skin irritation.				
H317	May cause an allergic skin reaction.				
H318	Causes serious eye damage.				
H319	Causes serious eye irritation.				
H371	May cause damage to organs.				
H400	Very toxic to aquatic life.				
H411		c life with long lasting	effects.		
CLP categories liste	-				
Acute Tox. 4	Acute toxicity, Category 4				
Aquatic Acute 1	Hazardous to the aquatic environment, acute, Category 1				
Aquatic Chronic 2	Hazardous to the aquatic environment, chronic, Category 2				
Eye Dam. 1	Serious eye damage, Category 1				
Eye Irrit. 2	Eye irritation, Category 2				
Flam. Liq. 2	Flammable liquid, Category 2				
Skin Corr. 1C Skin Irrit. 2	Skin corrosion, Category 1C Skin irritation, Category 2				
Skin Sens. 1	Skin Inflation, Category 2 Skin sensitization, Category 1				
STOT SE 2	Specific target organ toxicity - single exposure, Category 2
